PROFILE

Software engineer with 6 years of experience and a senior frontend focus, with a fintech and payments background. I combine technical leadership with end-to-end product development, from design to production, and use AI-assisted development to build products, including AI-powered ones.

EXPERIENCE

Software Engineer | **Independent** | Aug 2026 – Present · Montevideo, Uruguay

Building products end-to-end with AI-assisted development.

- **Coffee Master** (live · repo): AI barista chat powered by Claude. Next.js web app and React Native/Expo mobile app, Python/FastAPI backend, PostgreSQL on Supabase, email verification, per-user daily limits, streamed responses, EN/ES, deployed on Vercel. Tuned streaming and token usage to improve responses and lower the cost per message.
- **Patio** (in progress): reasoning-question game for Spanish-speaking kids (6–11) with a teacher panel to create questions and manage students.
- **ProveCheck** (in progress): field-service app. A service provider's workers see their assigned jobs, and client companies track requests and assigned staff and verify work logs.

Senior Frontend Developer / Product Engineer | **ICASH.ONE** (Fintech) | Jul 2024 – Jul 2026 · Uruguay

- Worked end-to-end, design to production, on wallet payment and checkout flows for users in Asia, Europe, Latin America and Africa.
- Designed a multi-client (multi-tenant) frontend architecture with **Module Federation**, serving client-specific themes, modules, languages and API integrations from one codebase.
- Built a multi-currency user portal from scratch (frontend, backend data integration, SQL, analytics) for balances and transactions.
- Built a multi-client user-management panel for a partner wallet product, contributing to Java backend services and collaborating with the mobile team on Android features.
- Migrated multiple apps from Create React App to Vite, upgrading dependencies and resolving compatibility issues, cutting build times by **~80%**.
- Mentored a developer from junior to semi-senior, led design and product decisions, and ran technical onboarding for new team members.

Tech: React, TypeScript, Zustand, TanStack Query, Redux, Tailwind, Material UI, Radix, shadcn, Nx, Vite, Java, SQL, Android.

Frontend Software Engineer | **IUGO Software & Design Studio by Domus Global** | Mar 2022 – Jul 2024 · Uruguay

- Staff augmentation at D24 and ERON International (payments): built merchant, admin and internal finance panels, and led the frontend redesign and rebrand of a creator payouts portal. React, Next.js, Redux, SQL.
- Community/education platform: built an admin panel for managing courses and kids' content, plus a user app with games, achievements and events, using Vue and React.

Cloud Analyst Developer / Software Developer | **Replica** (Microsoft Partner) | May 2020 – Sep 2021 · Lima, Peru

- Web apps, e-commerce, corporate sites and cloud solutions with Azure, Power Platform, Vue/Nuxt and React.

Freelance Frontend Developer | **Independent** | Jan 2020 – May 2020 · Remote

- Landing pages and dashboards with Vue.js and D3.js, including a drag-and-drop UML diagram editor.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Vue/Nuxt, React Native/Expo, Redux, Zustand, TanStack Query, Tailwind, Material UI, shadcn/ui, i18n

Architecture: Module Federation, multi-tenant/white-label, Nx, Vite, design systems, performance

Backend & Data: Java, Python/FastAPI, Node.js, REST APIs, SQL, PostgreSQL, MySQL, SQL Server, Supabase

AI & Automation: Claude, Cursor, AI-assisted development, LLM integration, n8n

Cloud & CI/CD: AWS, Azure, Vercel, GitHub Actions, Bitbucket

Design: Figma, UX/UI

Languages: Spanish (native), English: Intermediate (B1), currently completing B2

EDUCATION & TRAINING

Information Systems Engineering, Universidad Tecnológica Nacional, Buenos Aires, Argentina · 2015–2018 (coursework completed, degree not completed)

McKinsey Forward Program, McKinsey & Company · In progress, expected Dec 2026

Google UX Design Certificate, Coursera · In progress

AWS Certified Cloud Practitioner & **AWS Certified AI Practitioner**, AWS Skills Center · In preparation

English, CEFR B2 level, Wall Street English · In progress, expected early 2027
