SUMMARY

Product Engineer with 6 years of experience and a strong frontend background (React, TypeScript), building fintech and payments products end-to-end, from design to production. Now expanding into full-stack and AI product development.

EXPERIENCE

Software Engineer | **Independent** | Aug 2026 – Present · Montevideo, Uruguay

- Build full-stack and AI products end-to-end with AI-assisted development (Claude Code)
- **Coffee Master**: AI barista chat agent for brewing better coffee, on web and Android (Claude, RAG, Next.js, FastAPI)
- **ProveCheck**: task-management suite connecting a service company, its field workers and its clients
- **Patio**: educational 3D reasoning game for kids aged 6–11, with a web panel for questions and students
- **Merece**: online store for a gluten-free bakery, with a product admin panel (Next.js, Supabase)

Senior Frontend Developer / Product Engineer | **ICASH.ONE** | Jul 2024 – Jul 2026 · Montevideo, Uruguay

- Delivered wallet payment and checkout flows for users in Asia, Europe, Latin America and Africa
- Led features from requirements and Figma prototypes to production, solo or coordinating web, backend and mobile teams
- Designed a multi-client architecture with **Module Federation** (per-client themes, modules, languages and APIs)
- Built a multi-currency user portal from scratch for balances and transactions (data integration, SQL, analytics)
- Built a partner wallet user-management panel, contributing to Java services and Android features with the mobile team
- Migrated multiple apps from Create React App to Vite, upgrading dependencies and cutting build times by **~80%**
- Led the design team, mentored junior developers and onboarded new team members

Frontend Software Engineer | **IUGO** | Mar 2022 – Jul 2024 · Montevideo, Uruguay

- Staff augmentation at D24 and ERON International (payments): built merchant, admin and internal finance panels
- Led the frontend redesign and rebrand of a creator payouts portal (React, Next.js, Redux)
- Built an admin panel and a kids' app with games and events for a community education platform (Vue, React)

Cloud Analyst Developer / Software Developer | **Replica** | May 2020 – Sep 2021 · Lima, Peru

- Built web apps, e-commerce and corporate sites, and cloud solutions (Azure, Power Platform, Vue/Nuxt, React)

Frontend Developer | **Freelance** | Jan 2020 – May 2020 · Remote

- Built landing pages, dashboards and a drag-and-drop UML diagram editor (Vue.js, D3.js)

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Vue, React Native, Tailwind, Design Systems, Module Federation
Backend & Data: Node.js, Python (FastAPI), Java, REST APIs, SQL, PostgreSQL, Supabase
